

## COMPENG 2SH4 Project – Statement of Contribution

Your Group Name                      team a

Your Name                              Zixiang Zhou

Your Team Member's Name      Bilal Adem

**You must complete this statement of contribution without discussing it with your project partner, i.e., individually. Your statement should be concise (at most one-and-a-half page). It has three parts:**

1. Tell us about your own contribution to the development of your COMPENG 2SH4 project. For example, you can tell us about which project iterations (as mentioned in the project manual) and C++ project classes that you worked on and completed. You can provide a concise answer either in paragraph form or through bullet points.

-gamemech/ iteration 1b and 3

-food class/ iteration 2b and 3

2. Repeat Part 1 above but this time tell us about your project partner's contribution to the development of your COMPENG 2SH4 project.

- Objpos class / iteration 0
- Objposarraylist class / iteration 2A
- Player class / Iteration 1A and 3

3. Tell us about your experience in your first collaborated software development through this project – what was working and what wasn't. If you are a one-person team, tell us what you think may work better if you had a second collaborator working with you.

My experience is very good. My partner he is very good at this project. He leads the project. I did do two parts like gamemech and food class, and we both worked together with the final project.cpp. It was very happy that our code ran so well. For the part that can be improved, I need do better time management, I always like to put off the stuffs which brought bad effect to my partner:({
